Sent by: Sarah Romeo

Everyone,

A new folder (W:\Otis Dress Rehearsals) has been created for Dress Rehearsal 11 testing. **This folder will be for screen images during the dress rehearsal ONLY.** This folder was created so that there would be ample space for the screen images and to prevent the issues that occurred with prior Dress Rehearsals.

Several of you have already been granted access to this folder. **If you will be saving screen images for Dress Rehearsal 11, please confirm you have been granted access** - the folder should appear in your Windows Explorer (under the W drive); you can also go to Identity Manager, View User Access to verify.

If you have not been granted access, and will need to save screen images, please email Sarah at sromeo@discover.com.

Thank you.
